PREDGOVOR

“STATISTIČKI GIDIŠNJAK" za 2003. godinu je redovna godišnja publikacija.

Institut za zaštitu zdravlja prikuplja, obrađuje i objavljuje statističke podatke iz oblasti zdravstva za teritoriju Republike Srbije. Podaci se prikupljaju na osnovu Zakona, Programa i Plana statističkih istraživanja u oblasti zdravstva od interesa za celu zemlju i Republiku, Zakona o evidencijama u oblasti zdravstva kao i Zakona o zdravstvenoj zaštiti. Statistička građa u Godišnjaku nastaje kao proizvod obrade zdravstveno statističkih izveštaja koje okružni zavodi, kao godišnje izveštaje, dostavljaju Institutu za zaštitu zdravlja Srbije.
Materijal u Godišnjaku je grupisan u nekoliko poglavlja:

- VITALNI I DEMOGRAFSKI PODACI - sadrži kratak pregled nekih značajnih podataka iz oblasti vitalne statistike
- USTANOVE I KADROVI - podaci u ovom poglavlju su prikazani na osnovu obrade podataka iz "Izveštaja o organizacionoj strukuri i kadrovima u zdravstvenim ustanovama"
- VANBOLNIČKA ZDRAVSTVENA ZAŠTITA - prikazuje rad i utvrđena oboljenja - stanja u vanbolničkim zdravstvenim ustanovama (domovi zdravlja i zavodi), po okruzima i po sluzbama;
- BOLNIČKA ZDRAVSTVENA ZAŠTITA - obuhvata prikaz rada stacionarnih zdravstvenih ustanova u Republici Srbiji.

U nameri da odgovorimo zahtevima korisnika za informacijama sadržanim u ovoj publikaciji, za zahvalnošću ćemo primiti svaku sugestiju koja bi proširila ovu publikaciju i povećala njeno korišćenje.
