# PREDGOVOR

Po definiciji, rezultat istraživanja na polju popisivanja, opisivanja i razvrstavanja objavljenih ili neobjavljenih publikacija, bibliografije su trezor kulture, izvori znanja, mostovi za nova stvaralaštva u kulturi i nauci. Uporedo sa nacionalnim bibliografijama, razvijale su se i zavičajne bibliografije, bibliografije periodike, starih i retkih knjiga, anotirane, analitičke, personalne bibliografije, bibliografije književnih rukopisa, bibliografije bibliografija.

Predmet Bibliografije je prikaz sadržine štampanih publikacija dospelih u biblioteku Instituta za javno zdravlje Srbije „Dr Milan Jovanović Batut“ tokom 2014. godine.

Raspored bibliografske građe sistematizovan je u četiri celine (knjige), što je konačna forma Bibliografije: 1. Knjige; 2. Periodične publikacije; 3. Članci i drugi sastavni delovi – abecedni raspored po prezimenima autora ili prve boldovane reči naslova teksta, ispisane velikim slovima; 4. Imenski registar – abecedno sređena imena autora i koautora.

Klasifikacija bibliografskih jedinica u Prvoj knjizi (Monografske publikacije), radi lakšeg pristupa podacima, izvršena je u dva poglavlja (Izdanja Instituta za javno zdravlje Srbije „Dr Milan Jovanović Batut“ i Izdanja Svetske zdravstvene organizacije), a u Drugoj knjizi na tri poglavlja (Strani časopisi, Domaći časopisi i Digitalna izdanja).

Kako su kao opšti zadaci Bibliografije bili poštovanje osnovnih principa i standarda izrade, nadamo se da će ona kao takva obezbediti i naučnost, odnosno da će biti od koristi budućim istraživačima.
