ПРЕДГОВОР

По дефиницији, резултат истраживања на пољу пописивања, описивања и разврставања објављених или необјављених публикација, библиографије су трезор културе, извори знања, мостови за нова стваралаштва у култури и науци. Упоредо са националним библиографијама, развијале су се и завичајне библиографије, библиографије периодике, старих и ретких књига, анотиране, аналитичке, персоналне библиографије, библиографије књижевних рукописа, библиографије библиографија.

Предмет Библиографије је приказ садржине штампаних публикација доспелих у библиотеку Института за јавно здравље Србије „Др Милан Јовановић Батут” током 2014. године.

Распоред библиографске грађе систематизован је у четири целине (књиге), што је коначна форма Библиографије: 1. Монографске публикације; 2. Периодичне публикације; 3. Чланци и други саставни делови – абecedни распоред по презименима аутора или прве болдоване речи наслова текста, исписане великим словима; 4. Именски регистар – абecedно сређена имена аутора и коаутора.

Класификација библиографских јединица у Првој књизи (Монографске публикације), ради лакшег приступа подацима, извршена је у два поглавља (Издања Института за јавно здравље Србије „Др Милан Јовановић Батут” и Издања Светске здравствене организације), а у Другој књизи на три поглавља (Страни часописи, Домаћи часописи и Дигитална издања).

Како су као општи задаци Библиографије били поштовање основних принципа и стандарда израде, надамо се да ће она као таква обезбедити и научност, односно да ће бити од користи будућим истраживачима.

КЊИГА ПРВА

I МОНОГРАФСКЕ ПУБЛИКАЦИЈЕ

Издања Института за јавно здравље Србије „Др Милан Јовановић Батут”
